

Arun Pungle

Full-Stack Developer

Objective

Motivated entry-level software engineer with expertise in Java, Spring Boot, and React.js, seeking to contribute to innovative projects while expanding technical skills in a collaborative environment.

PROFESSIONAL EXPERIENCE

Trainee Full-Stack Developer

HefShine Software Pvt. Ltd. Pune, Maharashtra | May 2024 – Present

- Completed a hands-on internship focused on full stack Java development, gaining practical experience in building scalable web applications using modern backend and frontend technologies.

Key Responsibilities:

- Learned and applied Java, Spring Boot, and MySQL to develop backend services and REST APIs.
- Worked on CRUD operations, form handling, and data validation in both frontend and backend components
- Design and implement RESTful APIs with Spring Boot, enhancing application performance and modularity.
- Optimize relational database schemas in MySQL for efficient data storage and retrieval.

Projects

Shree Maha Ganpati Sansthan Portal

- Developed a fully responsive web portal for *Shree Maha Ganpati Sansthan, Rajur*, one of the largest Ganpati temples in Maharashtra, to establish its official digital presence. The application allows administrators to manage trustee profiles and enables users to submit contact inquiries directly through the portal.
- Built a fully responsive frontend using React.js and Tailwind CSS to showcase trust-related information and trustee details.
- Designed and developed REST APIs using Spring Boot to handle dynamic content such as trustee profiles and contact form submissions.
- Integrated a MySQL database for storing trustee data and contact messages submitted by users through the frontend form..
