

# Arun Pungle

Full-Stack Developer

## Objective

Seeking a challenging entry-level software engineering position to leverage my technical skills and passion for problem-solving, while gaining valuable experience in a dynamic and innovative environment.

## PROFESSIONAL EXPERIENCE

### Trainee Full-Stack Developer

**HefShine Software Pvt. Ltd. Pune, Maharashtra | May 2024 – Present**

During this internship, acquired practical experience in full-stack development by building real-world applications from front-end to back-end.

Utilized Java, Spring Boot, MySQL, and React to develop robust, scalable web applications.

Engineered RESTful APIs using Spring Boot to enhance application performance and scalability, structured and optimized relational databases in MySQL to ensure efficient data storage and retrieval, and developed responsive and dynamic user interfaces using React and Tailwind CSS, ensuring cross device compatibility.

This experience refined skills in creating scalable applications, developing APIs, and seamlessly integrating front-end interfaces with back-end services.

## Projects

### Shree Maha Ganpati Sansthan Portal

- Developed a comprehensive web portal for Shree Maha Ganpati Sansthan, the Big Ganpati temple in Maharashtra, to establish its online presence.
- Designed an intuitive and responsive UI using React and Tailwind CSS, ensuring a seamless user experience for devotees.
- Built a robust backend with Spring Boot and MySQL, enabling efficient management of temple information, history, events, and announcements.
- Built a robust backend with Spring Boot and MySQL, enabling efficient management of temple information, history, events, and announcements.
- Enhanced accessibility and engagement by providing a digital platform for devotees to stay informed about temple activities.
